## SUMMARY

---

Hi everyone..

My name is Ravena Auliya, my friends often call me Ravena. I am an Informatics Engineering student, Batam State Polytechnic. I started basic web programming in college. I think new knowledge is very interesting to explore. Besides, at this time I learned to focus pursuing experiences that will definitely help me in the future. I can't just wait, I focus on trying.

## EXPERIENCE

---

09/2022 - 12/2022

### Front end & Back end

Brail Polibatam Robot Website

Polibatam's robot brail website is a company profile website that aims to convey information about Brail easily and quickly.

- Project based learning (PBL)
- Front end & Back end main page
- Framework CI 4, PHP 8, Bootstrap

05/2022 - 08/2022

### Back end

Tracer Study Alumni

The Tracer Study Alumni application is a data collection and tracking program for alumni based on the CRUD website and MySQL database which aims to find out how much college graduates can be involved in the world of work.

- Mini Project based learning (PBL)
- Analysis and Alumni page website
